

Latching Panic Buttons

MEC-HPB01 – N.O. (push-to-close)

MEC-HPB02 – N.C. (push-to-open)

The **MEC-HPB01** and **MEC-HPB02 Latching Panic Buttons** are the perfect units for activating hold-up circuits, cameras, etc. Because of its superior construction and solid-state design, these units can be used for silent operation, or if you wish, these units can be conveniently connected to sound a bell, siren, or other signalling device when triggered. The highly reliable switch mechanism ensures that these units will give you years and years of trouble-free operation.

Once activated, the **MEC-HPB01** and **MEC-HPB02** will latch-in and an indicator flag will clearly show which hold-up switch was depressed – a great help when more than one unit is used. The unit can only be reset by an authorized person with the key.

Features

- Highly reliable switch mechanism.
- Attractive, durable stainless steel housing.
- Compact size.
- High-security key reset.
- Use with either N.C. or N.O. input.
- Includes 2 keys.

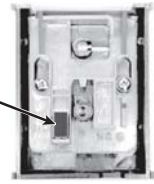

Position magnet here for N.O.

WARRANTY: This product is warranted against defects in material and workmanship while used in normal service for a period of one (1) year from the date of sale to the original consumer customer. MEC's obligation is limited to the repair or replacement of any defective part if the unit is returned, transportation prepaid, to MEC.

This Warranty is void if damage is caused by or attributed to acts of God, physical or electrical misuse or abuse, neglect, repair, or alteration, improper or abnormal usage, or faulty installation, or if for any other reason MEC determines that such equipment is not operating properly as a result of causes other than defects in material and workmanship.

The sole obligation of MEC, and the purchaser's exclusive remedy, shall be limited to replacement or repair only, at MEC's option. In no event shall MEC be liable for any special, collateral, incidental, or consequential personal or property damages of any kind to the purchaser or anyone else.

NOTICE: The information and specifications printed in this manual are current at the time of publication. However, the MEC policy is one of continual development and improvement. For this reason, MEC reserves the right to change specifications without notice. MEC is also not responsible for misprints or typographical errors.
