

Converter 100D

100 VOLTS INPUT TO LINE LEVEL OUTPUT

awWILLS
audio intelligence

High level to Low level converter

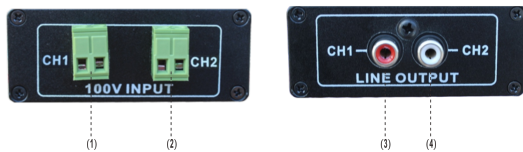

70/100 volt interface

Line Level Outputs

Suitable for long distance transmission

Negates the need to run new cables from main amplifier

Compact design

Channel Inputs and Line Outputs

Specifications

Model: aw100D 2 Channels

System: 2CH High Level to Line Level Converter

Chassis: Color Black

Material: Aluminium

Input High Level Input: Phoenix connector x 2

Output Line Level Output: RCA connector x 2

Power Requirement: None

Dimension: 136mm(W) x 80mm(D) x 30mm(H)

Net weight: 0.45kg

Audio applications

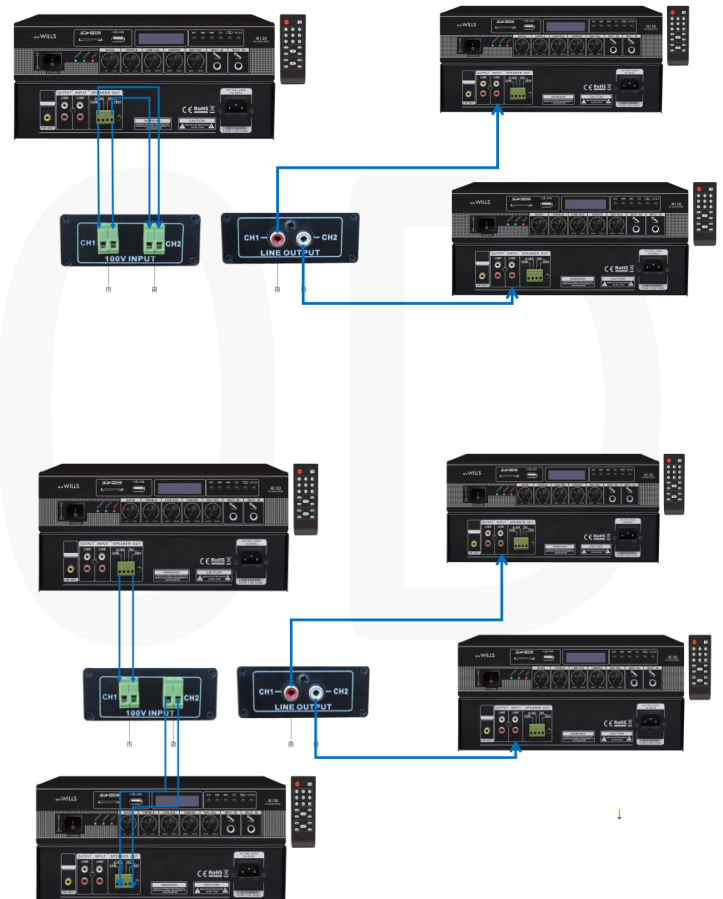

System isolation

Level matching

Add zones to an existing speaker system

Connection illustration

Playing the same audio source from one amplifier to two different extension amplifiers.

Playing two different audio sources from two different amplifiers to two different extension amplifiers.
