

WIRELESS CALLING SYSTEM

PRODUCT DESCRIPTION

TRANSMITTER (Call Button)

ST-100

Silicon cover prevents breakage, water/dust infusion

ST-600

3 functions call button (USD or Euro version)

ST-200

Light and slim design

ST-800

Improved transmission length

ST-800-3B

3 functions call button (USD or Euro version)

ST-300

Slim fit call button with water-resistance

ST-900

100% waterproof call button

ST-500

External antenna improves wireless range

SHS-100

Nurse call button

ST-4006

Calling servers with assigned numbers up to 6 pagers

SPECIFICATION

Frequency

FM 433MHz / FSK

Type of Modulation

FSK

Power Source

DC 3V Coin Battery (CR2025/2032)

Battery Life

Approx. calling 40,000 times

Transmit Power

+10dBm (10mW)

Antenna Type

PCB Pattern Antenna

Compatibility

All SYSCALL Receivers, Direct Pager & Repeater
